Scenario: Monitoring child location	**Entice** How to monitor a child's location?	**Enter** How to notify the user through message?	**Engage** What happens in the core moments in the process?	**Exit** What do people typically experience as the process finishes?	**Extend** What happens after the experience is over?

Steps

Create a web application	Parent can create geofence	Check whether child is inside geofence	Updating of child location	Location of child sent	Review of application	Alert parents

(People)

Interacting with child	Guiding child	Setting geofence	Regular updates	Parent needs are meet	Geofence need to be set	Regular monitoring	Connection terminated when gps is off

Goals and motivation

Monitoring child	Prevent child missing	Taking care of child in absence	Notifying when child crosses geofence	Location is sent	Geofence location is set

Positive moments

Happy parents	Child taken care without caretaker	User friendly	Regular updates	Less expensive

Negative moments

Alert sound is not given	GPS location is not proper	Message along with location not	Regular updates not sent	More features to be added

Areas of opportunity

In absence of caretaker	Alert sound along with massage	Alternate options if message not sent	Where no one is able to take care	Reviews may not asked frequently	Periodic updates of child location
