Project Design Phase-II

Date	03 October 2022
Team ID	PNT2022TMID12738
Project Name	IOT Based Safety gadget for child safety monitoring and Notification
Maximum Marks	4 Marks

Child Guard provides an in-path safety function that monitors the real-time movement of children walking on the road. It also provides a region safety function that sets designated areas in which children can play. Children can be warned about potential risks, and their guardians can be informed of location or activity abnormities.
